May 1, 2024

Dr. Elvis Elli
Department of CSES
University of Arkansas
Fayetteville, AR 72701

Dear Dr. Elli,

I am pleased to inform you that your Research Incentive Grant proposal titled, "Investigating transpiration responses of soybean genotypes to vapor pressure deficit for enhanced water use efficiency and drought tolerance," has been selected for funding, with a budget requested of $27,659. The funding period for your project will begin on June 1, 2024, and terminate on May 31, 2026.

An Interim report for your project will be due on March 1, 2025. A final report will be due on May 31, 2026, and should include detailed information regarding leveraged funding opportunities the investigator is pursuing, including the funding agency and the specific program targeted and/or grants that have been awarded as a result of RIG funding.

Also, please note that as a recipient of RIG funding, you are expected to complete a trip to visit with federal program officers sometime during the span of the funded project. The federal agency trips will be organized and funded by the AES. In addition, you are encouraged to volunteer to serve on a grant review panel.

The Worktag for your award is DS78755 UADA | AES | CSES | RIG | Elli | 5-31-26

Balances can be viewed using **RPT – Departmental Budget vs Actual** or **RPT – Balance by Designated**. If you are unable to access these reports in Workday, please submit a Help Desk ticket at https://agritechhelp.uark.edu/.

If you have other questions about this award, please contact me.

Congratulations on this award!

Sincerely,

Jean-François Meullenet, Ph.D.
Senior Associate Vice President for Agriculture-Research
Director, Arkansas Agricultural Experiment Station
